

Contents

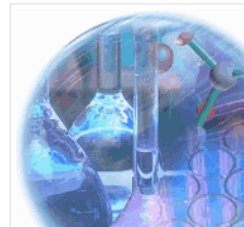

PHARMACEUTICAL DEVELOPMENT

Table of Contents	VIII
Acronyms - Abbreviations	XIII
Introduction	XIV
Preface	XV
Forward	XVI

Chapter	1
Regulatory	1.1
- Pre-formulation checklist	1.3
Getting the Right Documentation from A-Z	1.4
- SOP Control checklist	1.7
Development Notebooks	1.8
- Development Notebooks checklist	10
- SOP Control and Development Notebooks SOPs	11

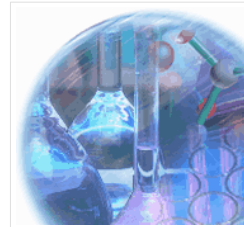

Chapter	2
Developing the Formula -an Overview	2.1
- Formulation Check List	2.2
- Development formulations	2.3
Drug Development Checklist	2.4
Development Formula SOPs	2.5
Developing the Formula	2.7
Design Considerations for Reconstituted Suspensions	2.12
Product Development Flow Chart	2.29
Product Development Guide	2.31

Chapter	3
Active Ingredients	3.1
-Do's and Don'ts	3.2
-Active checklist	3.3
-Approved Suppliers Checklist	3.5
-Standard Operating Procedures, Actives	3.6
-Alternative Active Sources	3.7

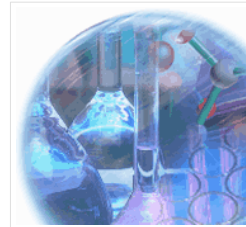

Contents

Chapter	4
Semi active ingredients	4.1
-Validating the Semi-active ingredients, Checklist	4.2
Qualifying the Antioxidant	4.3
Antioxidant Tabulations	4.5
Non active materials (excipients)	4.12
-Checklist non active ingredient	4.14
-Standard Operating Procedures, Non actives	4.15
Purified Water - An ingredient for development	4.16
Chapter	5
Container closure systems	5.1
-Container-liner-closure systems, Checklist	5.3
-Container-liner-closure systems, SOPs	5.4
-Packaging Components	5.5
-Packaging Components Documentation Requirements SOP	5.12
Chapter	6
Manufacturing Instructions	6.1
- Manufacturing Instructions; Checklist	6.3
- The manufacturing Instructions and Controls	6.5
- Batch Manufacturing instructions	6.31
- In-process and Release Specifications	6.44
- Manufacturing Flow Charts	6.51
- Large scale manufacturing Instructions	6.52
- Large scale Master Formula	6.53
- Large scale Packaging Instructions	6.56
Chapter	7
In-process Quality Controls	7.1
-Manufacturing in-process controls; Checklist	7.3
-In-process Quality Control Summary	7.7
-In-process Quality Controls; SOPs	7.10
Chapter	8
Finished Product Specifications	8.1
- Finished Product Specifications example and Checklist	8.3
- Release and Check Specifications for Suspensions	8.6
- Release and Check Specifications - Special Considerations	8.8
- Glossary of Terms	8.10
- Finished Product Specifications; Required SOPs	8.12

Contents

Chapter	9
Process Optimization and Procedures	9.1
Evaluation product specifications	9.3
Qualification of Antioxidant and Chelating Agents	9.6
Qualification of Antioxidant Limits	9.7
Chapter	10
Scale-up Procedures	10.1
- Scale-up procedures; checklist	10.4
- Scale-up procedures; SOPs	10.5
Chapter	11
Cleaning Limits	11.1
Cleaning Limits Procedures; Checklist	11.6
Cleaning Validation Requirements; SOPs	11.8
Cleaning procedures as the FDA see it	11.9
Chapter	12
Analytical Validation Requirements	12.1
-Analytical Testing Out of Specification	12.21
-Analytical Testing Do's and Don'ts	12.23
-Out of Specification Checklists	12.24
-Out of Specification test Results	12.27
- The Ins and Outs of Outliers	12.36
-Impurities in Drug Substances	12.38
-Impurities Do's and Don'ts	12.50
-Impurities Glossary of terms	12.41
-Impurities Decision Trees	12.42
-Analytical Post approval Changes -PAC-ALTS	12.51
-PAC-ALTS Checklist	12.54
-Analytical Testing TLC ID & Impurity Methods	12.61
Analytical Testing Assay Method	12.69
-Ruggedness and Robustness	12.79
Chapter	13
Process Qualification Batch	13.1
-Process Qualification Batch; Checklist	13.2
-Process Qualification Batch; SOPs	13.3
-Process Qualification Blend Analysis	13.5
-Process Qualification Blend Analysis - Do's and Don'ts	13.7
- BUA blend Uniformity Analysis - Guidance	13.8
Content Uniformity Protocol	13.13

Contents

Chapter

14

Pivotal batch

-The Pivotal Batch	14.1
-Pivotal batch Checklist	14.2
-Pivotal batch SOPs	14.3
-Sampling and Testing the Pivotal Batch	14.5
-Auditing the Pivotal batch	14.9
-Auditing the Pivotal batch Checklist	14.10

Chapter

15

Bioequivalence vs. RLD

15.1

Test Designs - Overview

15.3

Statistical Bioequivalence

15.13

IBE Equation explained

15.14

IBE Big Picture (Pros and Cons)

15.15

Comparing IBE and ABE

15.16

Generic Drug Dissolution and the RLD

15.19

Typical IVIVC Models

15.22

Dissolution Testing of IR Dosage Forms

15.24

Similarity Factor in dissolution testing

15.30

Biowaivers

15.32

Overall Dissolution Picture

15.36

Biopharmaceutics Classification System

15.37

Class One to Class four Drugs

15.38

Performance Verification in Dissolution testing

15.42

BA & BE - general Considerations

15.56

Food-Effects in BA-BE Studies

15.82

Bioanalytical Methods Validation

15.90

Bioanalytical Methods Validation Checklist

15.101

Dissolution testing of IR Solid Oral Dosage Forms & BCS

15.102

BioPharmaceutical Classification System

15.106

FDA Narrow therapeutic List

15.115

Similarity Testing - Chow, Pitt and Others

15.116

Chapter

16

Technical Transfer Documentation

16.1

-Technical Transfer Documentation; checklist

16.5

-Technical Transfer Documentation; Pharmaceutical Part

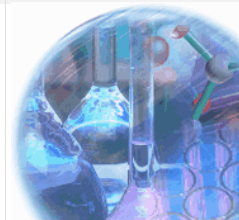

16.7

-Technical Transfer Documentation; Analytical Part

16.10

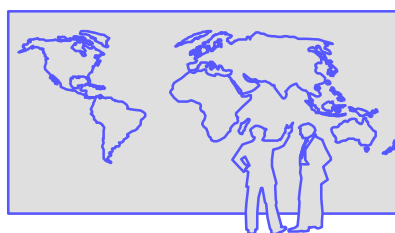

-Laboratory Equipment Installation & Operation Qualification

16.13

Contents

Chapter	17
Process Validation batches	17.1
-The Process Validation Batches; checklist	17.3
-Process Validation Requirements; SOPs	17.4
-Reserved page	17.5
-Process Validation Master Plan	17.6
-Bulk Suspension Single Fill	17.8
-Bulk Suspension Two Stage Fill	17.9
-Process Validation Master Protocol	17.10
-Process Validation Stability & Statistics	17.11
Chapter	18
Pre--Approval Inspections	18.1
PAI Summary	18.8
Pre--Approval Inspection Audit - Team Set Up	18.9
Pre--Approval Inspection Audit - Team Activities	18.11
Chapter	19
Stability Testing of Drug Substance and Drug Product I	19.1
Stability Commitment	19.8
Stability Protocol	19.9
Stability Summary - Results	19.10
Stability Reports	19.12
Stability Testing of Drug Substance and Drug Product II	19.17
Stability Testing of Drug Substance and Drug Product II	19.23
Stability Testing Significant Change SOP	19.27
Storage Conditions	19.31
Photostability	19.33
Chapter	20
Standard Operational Procedures	
Setting up a functional Stability Unit	20.1
Stability SOPs Development	20.9
Development SOPs - Training Tool	20.15
APPENDIX	
Development Guidances	20.21
Master Formula & Processes - Title 17 Series
